

Singapore Chapter MP-RP Night & Chinese New Year Celebration

FREE for all Singapore Chapter Members!

Wishing all our members a Happy and Prosperous New Year 2018!

The time is here again for celebration and also to thank all our members for their support throughout the year.

We will be having our Annual Chinese New Year celebration on the 1st February 2018 (Thursday) with “Lo Hei” dinner. In conjunction with this event we are having our **Membership Promotion (MP) & Research Promotion (RP)**.

At the member’s night, Prof Mat Santamouris will give a talk on “Cooling the buildings – Prediction for 2050”

So hurry now, reserve your seat as space is limited!

Strictly no walk-in registrations

Seminar on “Cooling the buildings – Prediction for 2050”

Cooling of buildings currently represents a considerable fraction of the total energy consumption in the world. The talk discusses the details of the framework which defines the present and future cooling energy consumption of the building sector. The main technological, economic, environmental and social drivers that determine the market penetration of air conditioning are identified and their impact is investigated.

Duration of Talk: 1 hours

Professor Mat Santamouris
The Anita Lawrence Chair in High Performance
Architecture,
School of Built Environment,
University of New South Wales

- Mat Santamouris is Professor of High Performance Architecture in the University of New South Wales in Australia. He is also a professor at the University of Athens, Greece and visiting Professor at the Cyprus Institute, Metropolitan University of London, Tokyo Polytechnic University, Bolzano University, Brunel University and National University of Singapore. Director of the Laboratory of Building Energy Research, at the University of Athens. Past President of the National Center of Renewable and Energy Savings of Greece.
- Editor in Chief of the Energy and Buildings, Past Editor in Chief of the Journal of Advances Building Energy Research, Associate Editor of the Solar Energy Journal and actual or past Member of the Editorial Board of the International Journal of Solar Energy, Journal of Buildings and Environment, Journal of Sustainable Energy, Journal of Low Carbon Technologies, Journal of Open Construction and Building Technology, Sustainable Cities and Society and of the Journal of Ventilation. Editor of the Series of Book on Buildings, Energy and Solar Technologies published by Earthscan Science Publishers in London.
- Editor and author of 14 international books on topics related to heat island, solar energy and energy conservation in buildings published by Earthscan, Springer, etc. Guest editor of twelve special issues of various scientific journals. Scientific coordinator of many international research programs and author of almost 240 scientific papers published in peer reviewed international scientific journals.
