

DATE: 22 FEBRUARY 2018 (THURSDAY)

TIME: Afternoon (2:30 PM)

Venue: Changi Business Park

KEPPEL DHCS

District Cooling Tour

Keppel DHCS is the first and the largest district cooling system developer and service provider in Singapore. With the increasing concern in preserving our natural resources, District Heating and Cooling Systems (DHCS) provide a preferred alternative to conventional heating and air-conditioning systems where DHCS is more cost effective and environment friendly.

The visit would include a technical tour to the district cooling system and a detailed briefing on the operations for a district cooling system in terms of energy savings, technology implemented and the environmental benefits it has compared to conventional air conditioning systems.

Students would gain knowledge on innovative air conditioning technologies prevalent in Singapore and an insight on the energy generated in Singapore through these systems.

For registration please email your confirmation with the following details to my email id at pbraajesh@gmail.com.

Full Name, Uni/Poly Details, ASC ID. For queries you may email me at the above email id or whatsapp at +65 83329885.

FEES

1. ASHRAE STUDENT MEMBER: Free
2. ASHRAE ASC Member: \$5
3. NON-ASC MEMBER : \$10

**CLOSING DATE OF
REGISTRATION:**

9th FEB 2017 (Friday)

(Limited to 20 Participants)
